**Quick Reference Guide for Section 111 Registration
For All Responsible Reporting Entities**

This guide is intended as a reference to assist Section 111 responsible reporting entities with the registration process. It is not a substitute for reading the applicable and existing instructions that are found in the appropriate User Guides.

The Registration Process and Determining the Number of RRE IDs Needed:

<u>IF:</u>	<u>THEN:</u>
<ul style="list-style-type: none"> A User wants to obtain an RRE ID: 	<ul style="list-style-type: none"> A User <u>must</u> complete the New Registration process and provide information for the Authorized Representative. (An Authorized Representative <u>may not</u> be a user of the Section 111 COBSW for any RRE ID.) All TINs supplied for subsidiaries under one RRE ID must be unique. In other words, all TINs for the RRE ID and subsidiaries listed must be <u>different within one specific RRE ID</u>. If your underwriting companies do not have different TINs, then do not list them as subsidiaries. Finally, <u>you can use the same TIN for multiple, different RRE IDs</u>. TINs just need to be unique within the same RRE ID. For example, if you are one entity, with one

	<p>TIN, registering five different RRE IDs, you can use the same TIN for all five distinct RRE IDs.</p> <p>NOTE: If you have trouble with data entry on the corporate structure/subsidiary page, it is not required to complete this New Registration step. You may simply click on the Continue button to bypass this page; your Account Manager can update this information through the Section 111 COBSW at a later date.</p> <ul style="list-style-type: none"> • After obtaining a Login ID and personally agreeing to the terms of the User Agreement, the Account Manager must complete the Account Setup step, which includes selecting a file transmission method for each file type to be submitted on the Section 111 COBSW. • If there is no NAIC company code applicable to the RRE or subsidiary, enter all zeroes when that information is requested.
<ul style="list-style-type: none"> • A User wants to register for multiple RRE IDs because they: <ul style="list-style-type: none"> • Want to submit more than one MSP or Claim Input File per quarter; and/or • Use different data processing systems, data center locations, claim office operations, agents, subsidiaries, etc. 	<ul style="list-style-type: none"> • The Account Setup step, including selection of file transmission method must be completed for each RRE ID. <ul style="list-style-type: none"> • The same TIN, the same Authorized Representative, and the same Account Manager can be named for each RRE ID. <p>NOTE: Complete Connect:Direct file transmission information must be available for the Account Setup step if that method is to be used. <u>Partial registrations or account setups may not be saved and completed later.</u></p> • Account Manager must invite and identify Account Designees that will need access to multiple accounts by RRE ID. • Fewer RRE IDs are suggested to ease the management of reporting, account maintenance and user access. The registration process will remain available indefinitely, and one or more additional RRE IDs may be requested in the future.
<ul style="list-style-type: none"> • A User registers for multiple RRE IDs and wants them all assigned to one EDI Representative. 	<ul style="list-style-type: none"> • Contact one of the assigned EDI Representatives and request a reassignment of all RRE IDs to one.
<ul style="list-style-type: none"> • Separate input files will be submitted for each subsidiary or if 	<ul style="list-style-type: none"> • Register and obtain an RRE ID for each separate subsidiary.

<u>IF:</u>	<u>THEN:</u>
<p>each/any subsidiary is handling its own reporting:</p>	<ul style="list-style-type: none"> Alternatively, the parent organization may register, obtain one RRE ID, and report for all applicable subsidiaries under that RRE ID.
<ul style="list-style-type: none"> Separate input files will be submitted for each line of business: 	<ul style="list-style-type: none"> Register and obtain an RRE ID for <u>each</u> separate line of business. One Claim Input File with a mix of Liability, No-Fault and Workers' Compensation claims <u>may</u> be submitted under the same RRE ID; or when using separate RRE IDs, separate files <u>may</u> be submitted for each or any combination by line of business.
<ul style="list-style-type: none"> Agents are reporting for multiple RRE IDs: 	<ul style="list-style-type: none"> Agents <u>must</u> test and submit files by RRE ID. <ul style="list-style-type: none"> Each individual Account Designee will only need one Login ID and can access multiple RRE ID accounts after being invited by the respective Account Manager(s).
<ul style="list-style-type: none"> The RRE is a claims processing <u>GHP TPA</u> (that meets the definition of an RRE in the GHP User Guide): 	<ul style="list-style-type: none"> The <u>GHP TPA</u> RRE is <u>not</u> required to register and obtain separate RRE IDs for each client's GHP data. <ul style="list-style-type: none"> If all of the clients' GHP data is processed in one system and can be submitted in one combined file, only one RRE ID is needed. The individual GHPs will be defined using the Employer/Plan Sponsor TINs submitted on the GHP TPA's MSP Input File.
<ul style="list-style-type: none"> It is a GHP RRE that will be reporting <i>only</i> Health Reimbursement Account (HRA) data: 	<ul style="list-style-type: none"> Do not register at this time. HRA data will not be collected for Section 111 reporting until after October 1, 2010. HRA registration must be completed by May 1, 2010 to allow enough time for testing to be completed before production files are due.
<ul style="list-style-type: none"> An entity is a liability insurance (including self-insurance), no-fault insurer RRE for the purposes of Section 111 and will have nothing to report: 	<ul style="list-style-type: none"> It is not required to register at this time. <ul style="list-style-type: none"> <u>Example</u>- If an entity is self-insured (as defined by CMS) solely for the deductible portion of a liability insurance policy but it always pays any such deductible to its insurer, who then pays the claim, it may not have anything to report. However, those that do not register initially because they have no expectation of having claims to report at this time, must register in enough time to allow for a full quarter of data exchange testing if, in the future, they have a reasonable
